TORRDAY, May 7. ket whose operations have supplied by far the greater portion of the transactions in stocks since the great depression in prices that culminated on March 14 were to-day inclined to be more pessinistic in their views than they have been at any time in the last two or three weeks, besing their conclusions apparently upon the continued lack of public interest in the market and the failure of the market to absorb without considerable recession in duotations the coalleing sales of securities that have been made in the last three or four Stock Exchange sessions. Continued emphasis was also laid in these circles upon the unfavorable character of the crop news, the reduction of railroad earnings as shown in current reports thereof and upon more or less fugitive indications pointing to the possibility of gold exports. There was herefore to-day a renewal of speculative attacks upon the market somewhat more vigorous than have been recently made, and although before the close of the day something of a recovering movement set in, most of the prominent stocks closed for the fourth successive day at considerable declines. Right at the outset prices were a little steadier but such gains as were made seemed only for the purpose of facilitating sales and the market weakened rapidly thereafter and so held throughout the day until the last hour of business, when it rallied as described. Particular pressure was brought against the American Smelting and Refining. Delaware and Hudson and New York Central stocks. Fluctuations in the American Smelting and Refining shares are always comparatively wide and the decline in the stock to-day attracted no especial attention. The selling of New York Central stock followed perhaps rather naturally upon more detailed consideration of the poor report of the company for the March quarter, to which due reference has been already made in this column. There was a dearth of explanations to account for the fall in Delaware and Hudson stock following so closely upon the decline in the stock vesterday. The story heard yesterday in regard to the matter was that the decline grew out of the likelihood, as supposed, that the company was soon to appear in the market as a borrower of money; but it hardly seems reasonable that so pronounced a fall in the price of the stock in two days as has taken place could be refer-able to such a cause. The Delaware and Hudson company stands in high credit and if speculators have been selling its stock because of the possible imminence of bor-rowing by the company of a few millions of dollars, even at current high rates for

the use of funds, they have had slender cause for their course There were not many fresh developments to-day affecting the financial or business situation. The wheat market on all the country's produce exchanges was nervous and irregular and closed at a slight decline from that of yesterday. The reports from the Western and Southwestern agricultural sections were somewhat more favorable than they have been, but attention was more particularly directed to conditions in the Northwest, where it was said the cold and freezing weather which has continued so long had thus far caused the planting of the spring wheat crop to be made with the greatest difficulty, and in some parts of the spring wheat territory had prevented any planting of the crop at all. Specula-tion for the rise in wheat derived not a little help from the strength of the commodity in the foreign markets, owing to unfavorable crop conditions there of a sort not dis-similar to those which have prevailed here. The bulletin of the Kentucky Agricultural Bureau for the month of April was published to-day, showing a condition of winter wheat of 89 per cent. as against 99 per cent. in the previous month and 97 per cent. at the corresponding time last year. Kentucky is, of course, a small winter wheat growing State, only raising normally about 11,000,000 bushels of the grain. The figures of the report, however, taken in connection with those for Ohio, Missouri and Kansas lately made testify that a very consider able deterioration in conditions is likely to be shown in the Government report for May 1 due on Friday; and it also seems clear that in the week that has passed since the Government observations were taken these conditions have grown worse rather than better. There figured as offsetting this to a greater or less extent in the markets to-day the optimistic declarations made concerning the progress of the crops in general by the Secretary of Agri-culture, but it was commonly thought that the Secretary's statement was produced more by a desire to inspire cheerfulness than by any close personal observa-tions of the grain fields. Suggestions of gold exports from this side were regarded in banking quarters to-day as being rather academic, although it was conceded that the question of these exports will be decided almost solely by the course of sterling exchange in the Paris market. Sterling in Paris is still above the figure at which gold can be sent to Paris from London as a purely exchange transaction, and whether, therefore, gold will be sent from this side to Paris, as is rumored, on a "triangular" basis depends upon the urgency with which French bankers press their demands for the yellow metal in London. The foreign markets as a rule to-day were weak and heavy, although discounts were lower everywhere abroad. Hope appears to be given up, however, for an early reduction in the Bank of England's minimum discount rate. Here to-day money rates were quite unchanged, reflecting in no way the transfer of \$1,000,000 to San Francisco through the Sub-Treasury. which with a loss by the banks to the Sub-Treasury up to the opening of business this morning of \$729,000 points to another round cash loss by the Clearing House

institutions for the week as a whole. CLOSENO PRICES OF UNITED STATES BONDS.

THE CURB MARKET.

The curb market was very quiet to-day with few developments of interest. In the first hour a fair amount of activity developed in a few issues and higher quotations were commonly made, but this movement soon subsided and from then on the market was indined to heaviness. Closing prices usually exhibited small recessions compared with the level of last night. Although the volume of dealings was reduced to about one-third of resterday's total, Manhattan Transit was still the most important feature. This stock advanced at first to the high price of the previous day and then sold off. Nevada Consolidated and Dominion Copper were notably firm and British Copper was up 1/2, while Standard Oil lost 3 points further. Other price changes were insignificant.

Transactions in detail in the market to-day were as follows:

Raterday.

Roston, May 7.—The market for copper shares to-day-was inclined to be reactionary at the beginning, but developed into a rather dull affair as the session advanced. American Zine was quite active making a gain of 3½ poists on the day, sales amounting to 1,800 shares. The remainder of the copper list was practically unchanged in price at the close and trading below the average in volume. United Shoe Machinery was the feature in industrials, gaining 2 points on the day. Rails were fairly active and steady.

FINANCIAL NOTES.

AMERICAN TRUST BLDG., CHICAGO.

The directors of the Mercantile Trust Company have decided not to fill the position left vacant by the resignation of H. C. Deming some time ago. It is very likely that the place will never be filled for the arrangements for a merger with the Emitable have been progressing rapidly. In all probability, it was said yesterday, Alvin W. Krech, president of the Equitable Trust Company, will be chosen president of the merged institution. Very likely the name of the Equitable Trust Company will be dropped. At the annual meeting of the New York At the annual meeting of the New York Telephone Company F. P. Fish, former presi-dent of the American Telephone and Telegraph Company, was succeeded as director by T. X. Vail, the new president of that company. The Superintendent of Banks has designated May 22, 1907, as the date upon which the Irving Trust Company of this city is permitted to change its name to Fidelity Trust

Live Stock Market.
